

# APSS LOCKDOWN™ - JMS

APSS Lockdown™ is a corrections management system designed for corrections and law enforcement professionals.

APSS Lockdown™ provides instant access to information about offender population and facilities use, including inmate physical description with photos, incarceration history, inmate contracts, scheduled release date calculation, inmate incidents, medication dispense, visitors and much more. Alert PSS offers solutions for both large and small facilities depending on an agency's needs.

All of the modular functionality required by a modern corrections facility, including: Booking and Release, Property Inventory & Management, Cases & Charges, Sentencing, Time-Served, Release Date Calculations, Housing Assignments & Tracking, Event Scheduling, Inmate Movements, Transportation, Commissary, Medical Records, Inmate Incidents, General Ledger Accounting and more.
